Name and address of Auditors	C & H Accounting Inc Osborn Road, Eshowe, 3815: 035 4742024

Background of the Organization

Inkanyezi Child and Family Welfare Society was established in January 1995. Its formation came when the National government said that all crèches should fall under child welfare societies, from 1995 till 1999. Later the organization changed focus from supporting crèches to establishing and supporting income generation projects, which were funded by the Department of Social Welfare and Population Development, since the department funded the projects directly the organization ran out of funds to support the projects, out of the 6 projects that were established only two are in existence.

In 2004 the organization revisited their constitution and decided that the focus of the society should be on Children related issues especially Orphans and Vulnerable Children that are affected or infected by HIV/Aids. To date Orphans and Vulnerable Children have been focus of the society, our biggest challenge has been getting funding to start our programmes.

Goals of the Society

To contribute to mitigating the socio-economic impact of the HIV/Aids Epidemic. Mobilizing and strengthening

community efforts to support Orphans and Vulnerable Children.

Mission Statement

To protect the safety, well being and development of our children through a holistic inter-sectoral approach.

Networks Affiliated to

Children in Distress Network
 Child Welfare South Africa [in process]
 HIVAN centre for HIV/Aids Networking
 Umlalazi Municipal Aids Council

Service to Community

To provide quality, comprehensive and compassionate care for orphans and vulnerable children living with HIV/Aids, by improving their access to appropriate services.

To strengthen and improve the quality of Orphans and Vulnerable children programmes.

Orphans and Vulnerable Children Programme

Objective 1:

Enhance the capacity of families to care and support orphans and other vulnerable children

<p>Activity 1</p> <p>Responding to the psychosocial needs of orphans and other vulnerable children and their caregivers.</p>	<p>OVCs run therapeutic play intervention groups with children to provide direct psychosocial support to +/-1800 bereaved orphans and other vulnerable children.</p> <p>Provide a creative family support programme to provide support to 150 caregivers in OVC households.</p> <p>Train and provide ongoing mentorship to 100 community volunteers to be able to identify bereaved children.</p> <p>Assist Child Headed households to access schooling, vital documentation and grants from the Department of Social Welfare.</p>
<p>Activity 2</p> <p>Strengthening the protection and care of orphans & other vulnerable children within their community of origin or foster families.</p>	<p>Facilitate training workshops for and providing information on child protection, legal support and OVC care % support issues to potential and prospective foster parents.</p> <p>Screening of prospective foster parents.</p> <p>Placement of OVC with foster parents as appropriate.</p> <p>Report any issues of concern and specific cases where the rights of OVC have been infringed upon due to lack of coordination of services.</p>
<p>Expected Results</p>	<p>Bereaved OVC would have increased resilience and are able to express feelings of coping through the psychosocial support activities.</p> <p>+/- 400 OVC will have been placed in foster parents that are informed on OVC related issues.</p> <p>Children's Rights will be protected.</p> <p>100 volunteers will be trained and would have increased awareness of the issue of child bereavement and how to support OVC and the households in which OVC live.</p> <p>Increased stats in terms of OVC placements in foster care [Child Care Act].</p>

Objective 2

Provide care and support of Caregivers in OVC households to access Health, Education, Food, security and Socio economic support services.

<p>Activity 3</p> <p>Support of caregivers in OVC households (especially women and young girls) who bear the burden of caring for people living with HIV/Aids and for OVC in the same household.</p>	<p>Recruit and train 30 Home Base Care volunteers</p> <p>Identification of OVC households, which have People Living with HIV/Aids and referrals to home base care services.</p> <p>Provision of psychosocial support to Home Base Care Volunteers that care for Households with OVC and People Living with Aids.</p> <p>Facilitating access of OVC households to education, health housing/shelter support, food/nutritional support, income generation activities, child protection and legal support.</p>
---	---

Objective 2 cont'd.

Activity 4 Working within schools to provide care and support to OVC.	Recruit and train 30 Community Volunteers to work with OVC in school-based programmes [workshop and support group model] 10 days workshop for 2000 adolescent OVC on personal development, sexual reproductive health, abstinence promotion and gender awareness issues. Training Workshops for teachers, Community Leaders, Peer Educators and support groups leaders – who will play a Peer Educator Role and provide ongoing support & counselling. Facilitate parent/teacher meetings or associations in seeking waivers of school tuition fees for OVC, to monitor continued attendance in school of OVC, and in accessing grants from Department of Social Welfare to support OVC.
Expected Results	30 Home Base Care volunteers will be trained in Primary Health Care and OVC care issues. Orphans and Vulnerable children Household s identified by community volunteers and partnered/supported through family based intervention. 30 Community Volunteers trained to educate and support OVC through primary and secondary school level school based programmes. Life skills provided to 2000 adolescent through a school based programme on HIV/Aids awareness, sexual reproductive health and gender issues. Capacitated Community Leaders, Teacher, and Peer Educators to provide support to OVC.
